BEE TREATMENT DISCLAIMER

TREATMENT SCOPE:

Mike's Pest Control in most cases will not remove hives, honeycomb or honey due to damage of the structure. Ask technician for more information.

Mike's Pest Control will not repair damage caused by bees and or honey.

Honey may melt once bees are exterminated and can affect structures where it is located.

Sealing of entry points may be needed to ensure that repopulation does not occur.

Home owner is responsible for removal and repairs if needed.

Bees will be exterminated. Mike's Pest control does not relocate bees.

There is no warranty for bees.
